REDAN FUN TO LEARN

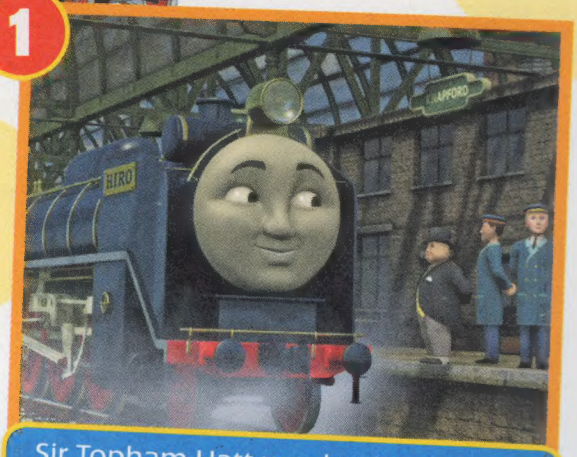
Hiro Helps Out!

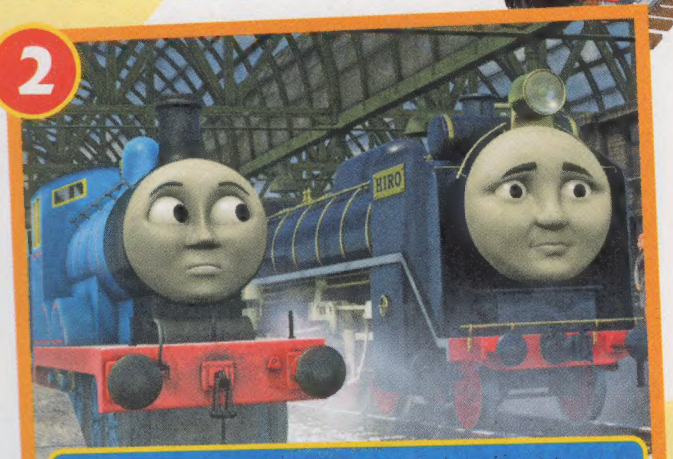
A Story from the Island of Sodor

1



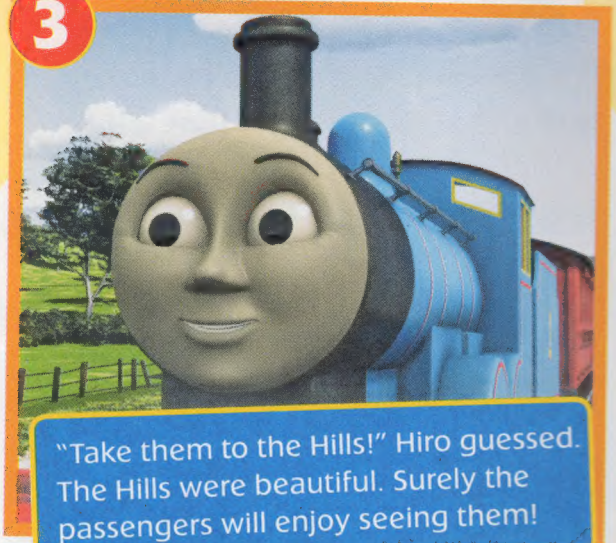
Sir Topham Hatt was having a very busy day. "I will help," Hiro decided. "I'll be Master of the Railway today!"

2



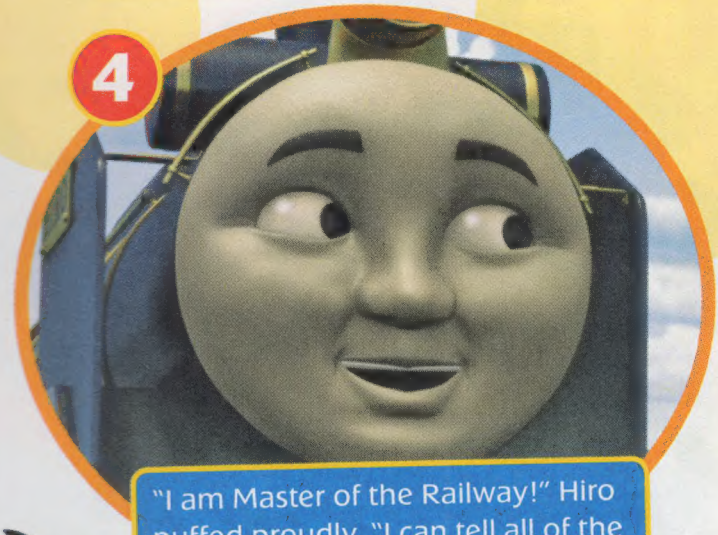
"Where should I take my passengers?" asked Edward. Hiro didn't really know where they were supposed to go.

3



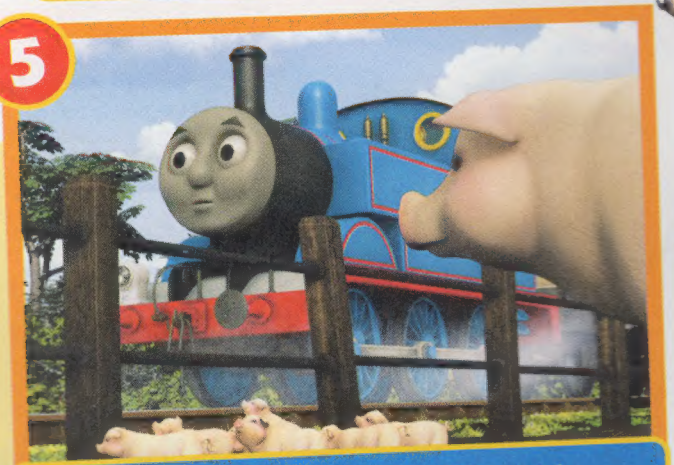
"Take them to the Hills!" Hiro guessed. The Hills were beautiful. Surely the passengers will enjoy seeing them!

4



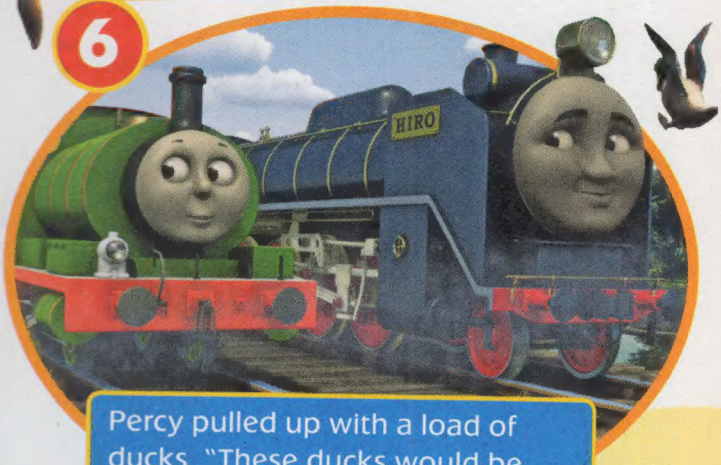
"I am Master of the Railway!" Hiro puffed proudly. "I can tell all of the engines what to do today."

5



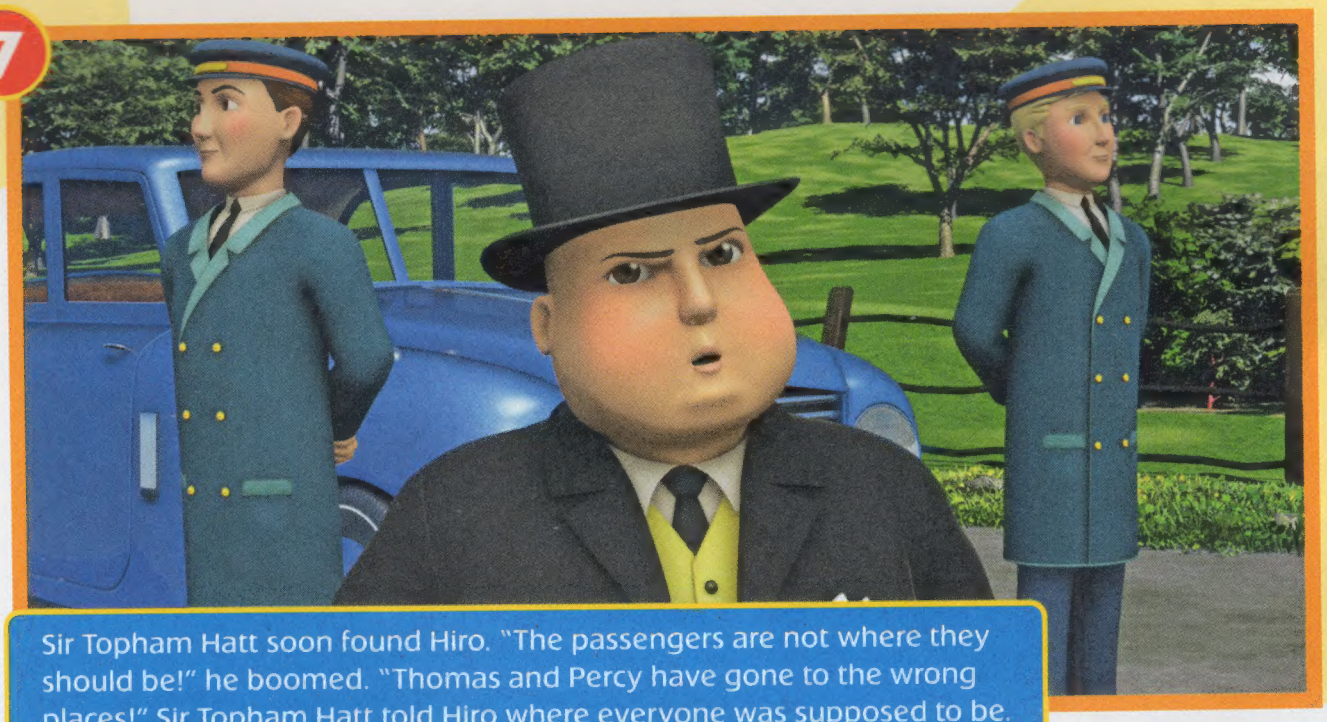
"Where should I take my load?" asked Thomas. Hiro didn't want to bother Sir Topham Hatt. "Go to the farm!" he said.

6



Percy pulled up with a load of ducks. "These ducks would be happy at the pond!" Hiro decided.

7

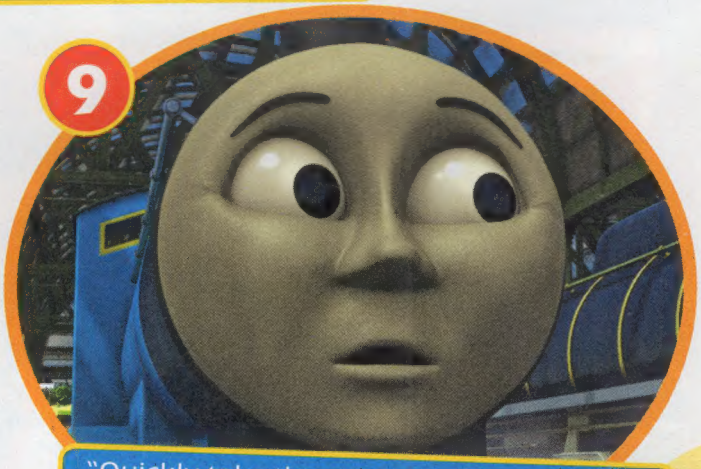


Sir Topham Hatt soon found Hiro. "The passengers are not where they should be!" he boomed. "Thomas and Percy have gone to the wrong places!" Sir Topham Hatt told Hiro where everyone was supposed to be.

8

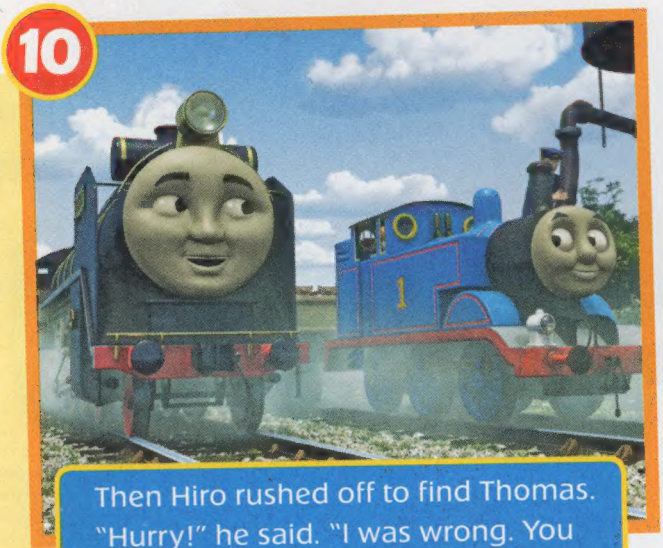
Hiro felt bad. He had sent the engines to the wrong places. "I must tell them all where they really need to be!" he puffed.

9



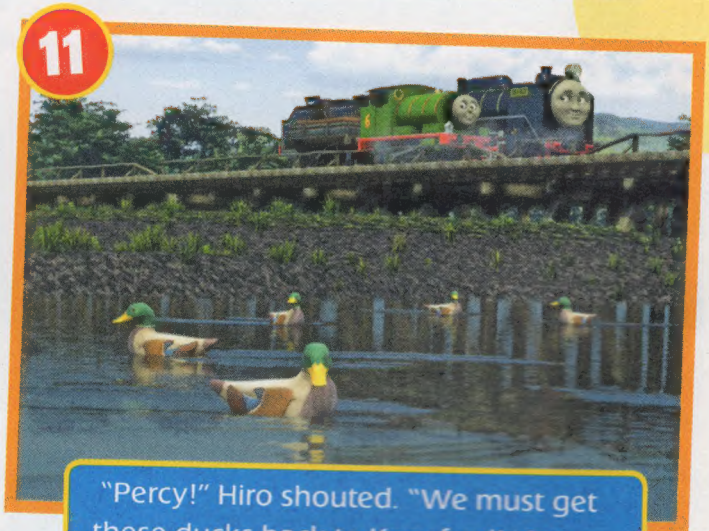
"Quickly take the passengers to Knapford, Edward!" Hiro said. "Sir Topham Hatt will tell you where to go!" Edward steamed off.

10



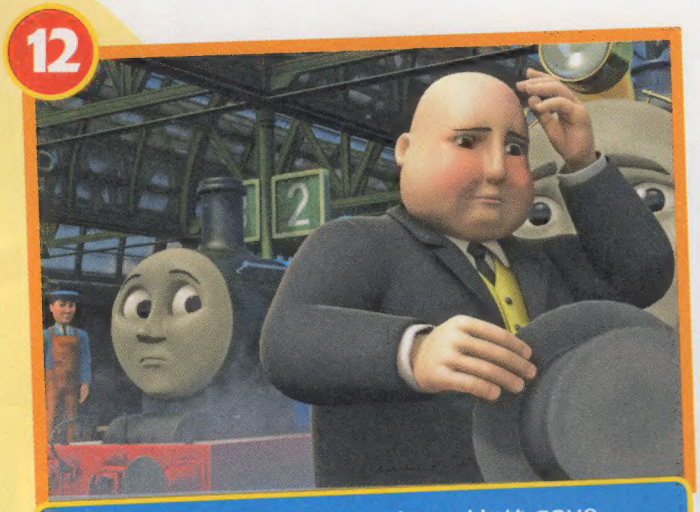
Then Hiro rushed off to find Thomas. "Hurry!" he said. "I was wrong. You must rush back to Knapford!"

11



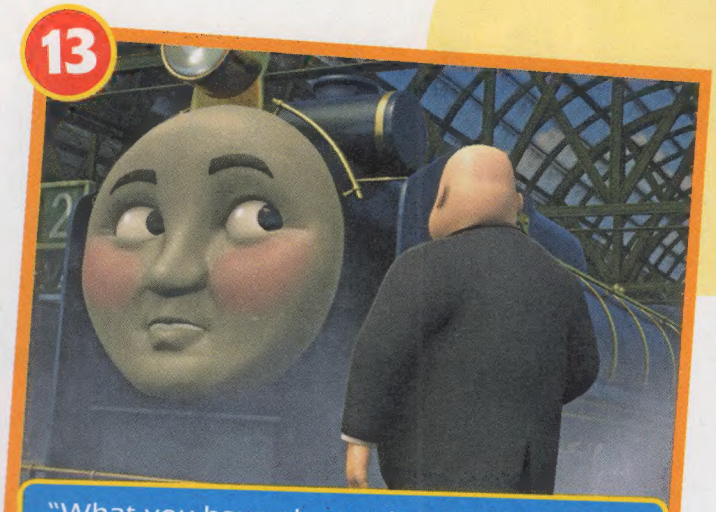
"Percy!" Hiro shouted. "We must get these ducks back to Knapford! Get back into those crates, silly ducks!"

12



Back at Knapford, Sir Topham Hatt gave Percy, Edward, and Thomas their orders. "Now off you go!" he boomed as the engines pulled out. Hiro patiently waited for his. "What should I do?" asked Hiro.

13



"What you have always done," replied Sir Topham Hatt. "You will be helpful, Hiro. And this time you will help me out by doing what I ask you to do!" Hiro remembered just who was Master of the Railway!

Quiz Time!

See what you can remember from this story.

1. **How many engines did Hiro send to the wrong places?**

Molly

FACT FILE

Molly is a large, powerful and bright yellow steam engine. She's proud of her strength, but Molly is also very sensitive. She wants the other engines to think the best of her. She finds any conflict very upsetting and steams away to avoid it.

Molly is a Claud Hamilton class 4-4-0 built around 1900 by the Great Eastern Railway at Stratford works. Two of this class were appointed to haul the Royal trains to Sandringham.

Cut out and keep this mini-poster. Don't miss the one in our next issue!

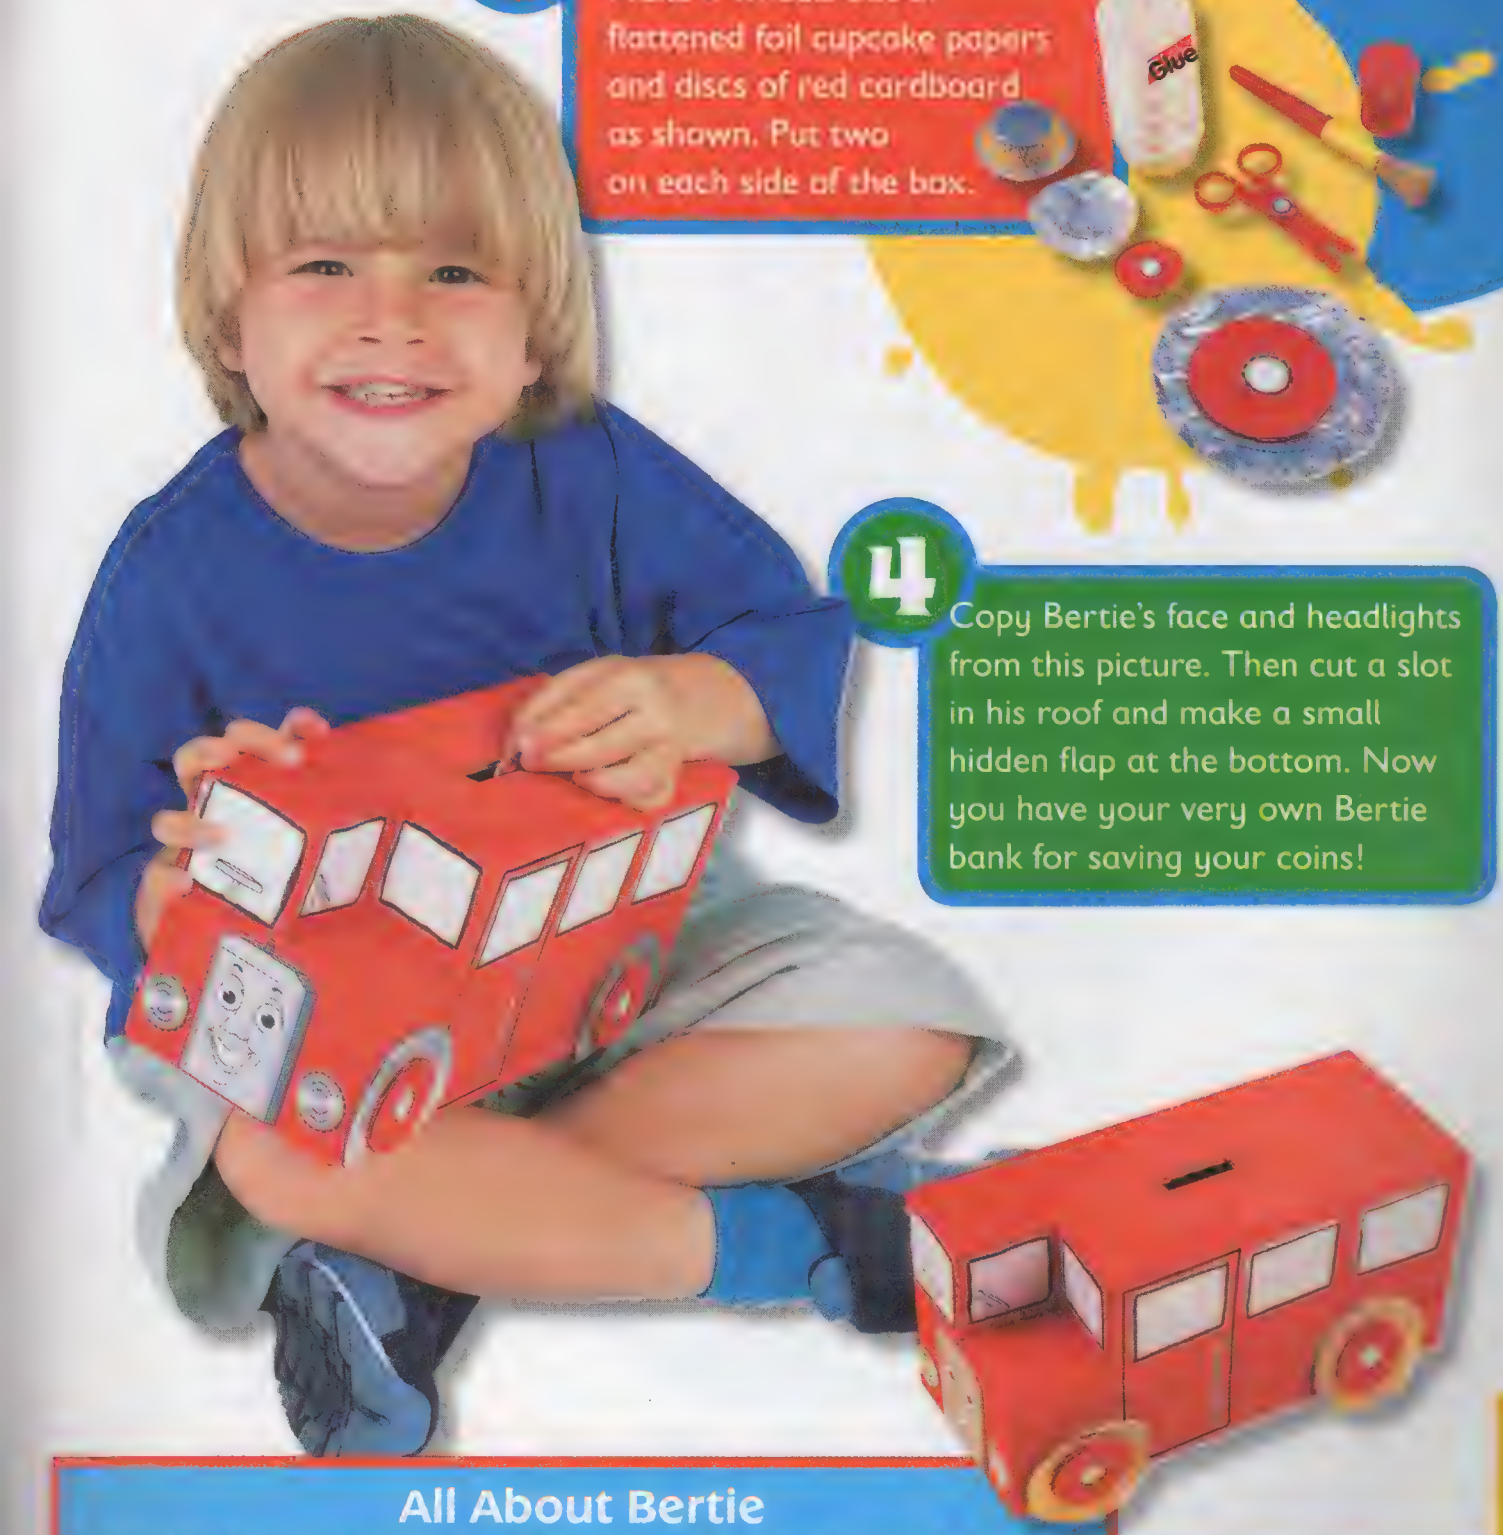
Parent and Child Page

3 Make 4 wheels out of flattened foil cupcake papers and discs of red cardboard as shown. Put two on each side of the box.



4 Copy Bertie's face and headlights from this picture. Then cut a slot in his roof and make a small hidden flap at the bottom. Now you have your very own Bertie bank for saving your coins!

All About Bertie

Bertie is a red bus, who loves driving around Sodor picking up passengers. He loves racing Thomas to see who can get to the station first!

Hank

1

FACTS

ENGINE TYPE: steam

COLOR: bright blue with red wheels

SIZE: large and tall

SPEED: average

PERSONALITY: cheerful and confident

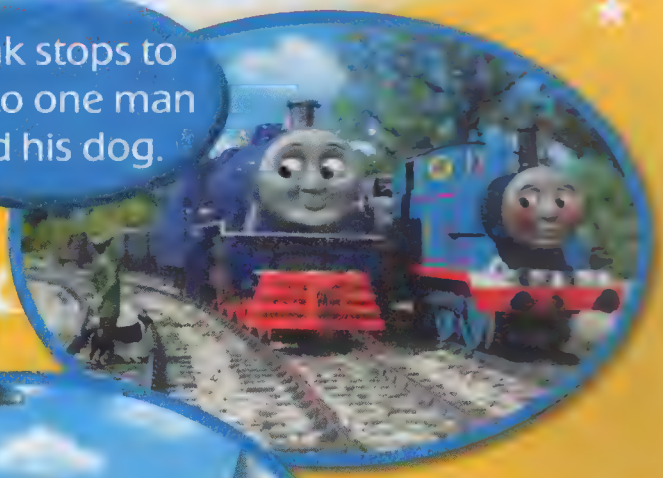
ABOUT: Hank is a big and bold steam engine. He has the enthusiasm of a cheerleader, the strength of a titan, and can sometimes act a little goofy! Hank doesn't look like the conventional Sodor Steam Engine - he has lots of bells and whistles. While initially Hank puts the other engines out of joint, they quickly realize that Hank means well and has a very big heart.

Trace over Hank's name.

Hank

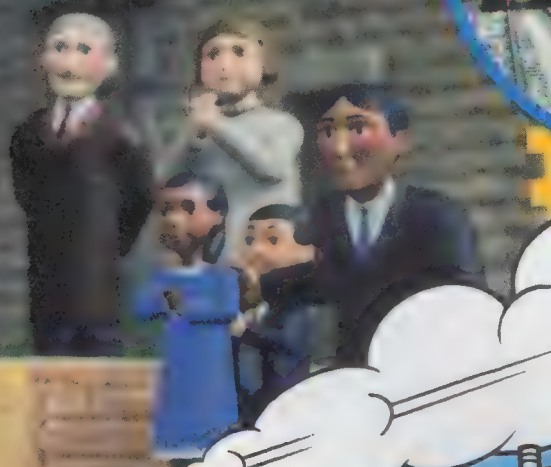
Photo Album

Hank doesn't hit it off with Thomas when he calls him a 'little' engine.

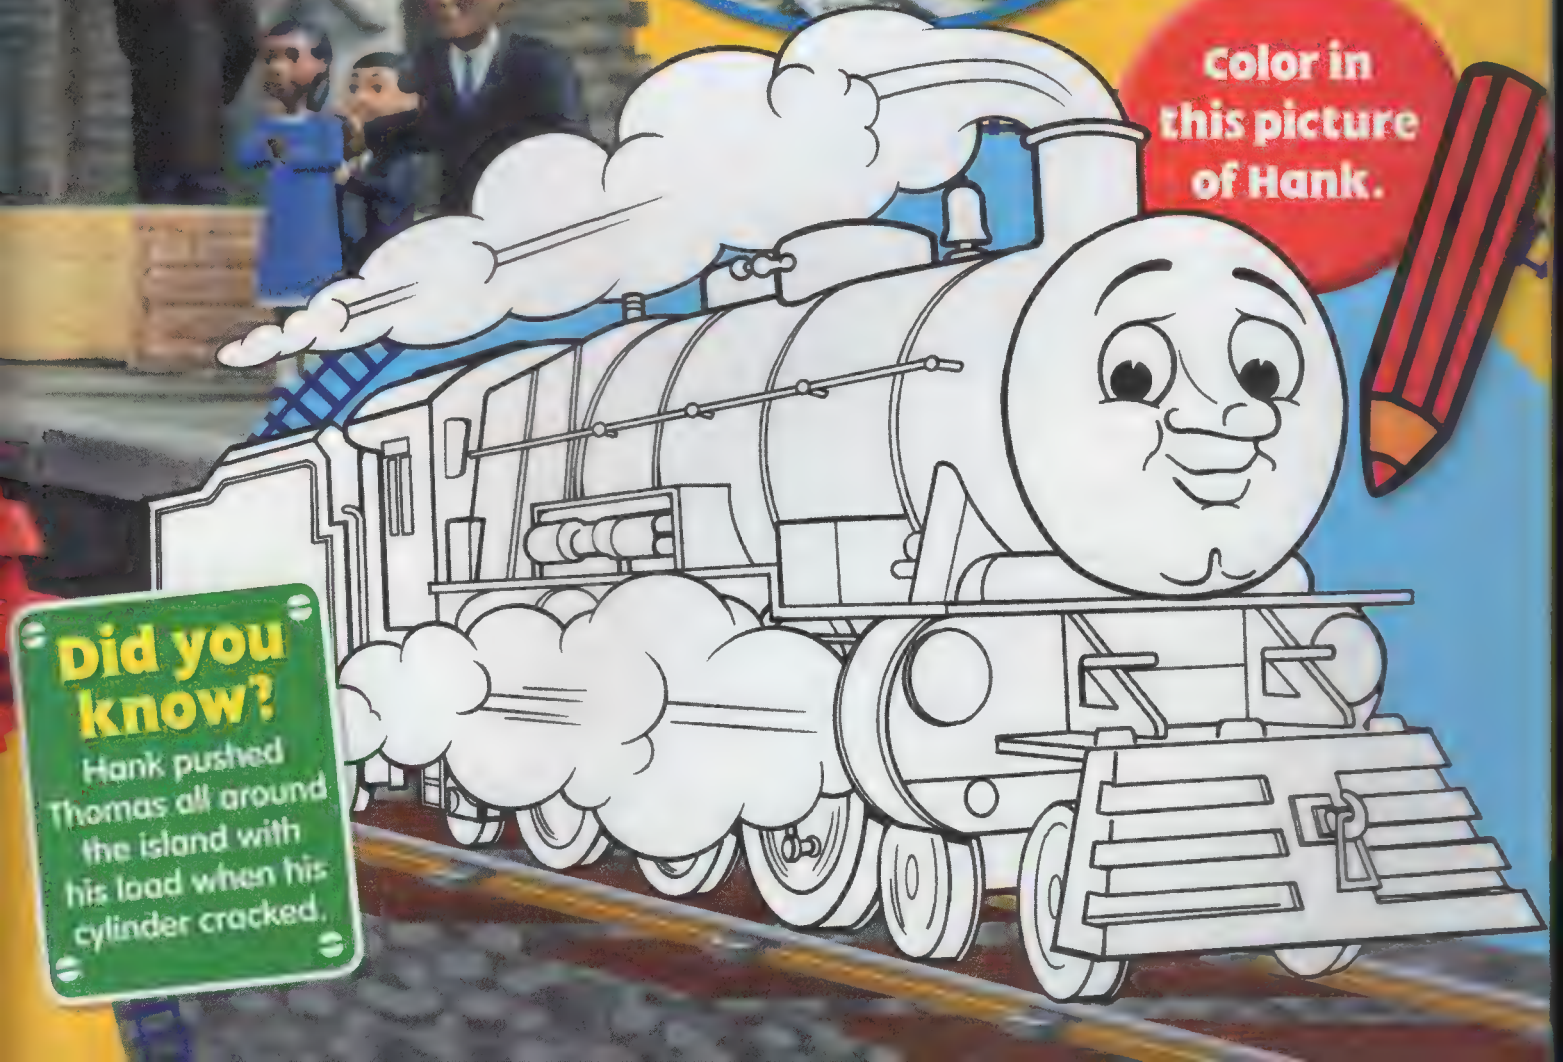


Hank stops to talk to one man and his dog.

The engines held a colorful welcome party for Hank when he arrived!



Color in this picture of Hank.



Did you know?

Hank pushed Thomas all around the island with his load when his cylinder cracked.
